

WSBIS Working Team Meeting 7/23/2015

Present: Roman, Bill B, Steve K, George, Paul E, Rich H and Heath

Phone: Larry and Margaret

Review minutes: No comments

Data Migration:

- **Bill will try to work up estimates for migrations and local agency review based on what has happened with King County.**
- Margaret hasn't found any further issues so far based on the little she's been able to review.
- Bill is planning a second attempt at a field machine install
- Data migration tool complete with the exception of some obsolete structure "funny-ness" that is still being investigated
- King County – 400 some odd structures took roughly 16 hours
- Migration plans is to:
 - Try to shut down service at end of work day
 - Run migration
 - Bring service back up the next morning
 - OFFICE users need special consideration due to the service being down and their direct connection to the DB.
- **Bill updated the Statement of Work and needs some sign off's on completed items**
- **Larry will get Bill a list of a few structure that have LP and BPO shared ("interweaved") inspections.**

Deployment Issues:

- More King County testing needs to happen

Synchronizer Issues:

- User out in the field with a sketchy connection for a limited time, and they become disconnected, the synchronizer breaks and it shouldn't
- Steve proposing more synchronizer controls
 - Path A
 - Actions of creating a UCD and promoting to Lock needs connections
 - Changes on local machine don't synchronize...don't move to server...until locked when connected
 - Path B
 - A more durable/heavier synchronizer

Load Rating Data:

- Load Rating Docs tab to be created for LP within the Records (Letters) tab.
- New Load Rating Form (tab) and data checks
 - Create New Form
 - No decision on a report
- Fields from BPO Load Rating Database

- Proposed AASHTO Truck Fields
- Roman – LRFR and HS-20 also?
- Unknown about how to handle and record the different methods
- Rating method for legal loads added?

Data Checks:

- Load Rating Screen and Data checks
 - LVL 5 data checks
 - Revise rating flag
 - ADT changes and the impacts on the sufficiency rating?
 - Maybe some kind of data check for this
 - Open, closed, posted – data check
 - Might need revision
 - Perhaps based on NRL
 - $NRL < '1'$ then data check to revise

Project Tracking:

- On schedule
- Bill hoping to take some time to develop in December and January
- February: King County migration
 - Stagger LP SI, SP INV and run to end of year 2015

Next Meeting – Week of August 24th

Margaret relatively available for the week

Rich H. will be in Portland

Action Items highlighted in Blue and bold.
